John,

Sorry I did not get to this sooner. I just wanted to express my personal thanks to you and your team. Last month at Lakeside we needed to relocate some fire sprinklers quickly. The solution chosen required your team to build out two sides of the upper skylight in the family oasis at Lakeside, not a small task. All plantings and finishes were in place in this area so protecting these finishes was going to be difficult. All work needed to be completed in a few days as we prepared for an open house. With leadership from Roy McDonald, your team stepped up and put in the extra hours it took to complete this challenge without any issues.

This was a huge success for the construction team, thanks for being a true partner to Alegent.
